- Team should consist of maximum 3 players and minimum 2 players.
- Students from different institutes can form a team for the event.
- Student should carry the valid college identity cards of their respective institute at the time of reporting.
- Switching of team members during the on-going event will not be allowed.
- Use of any kind of help from Google/Internet is strictly prohibited.

General Rules

- The decision of judges cannot be challenged.
- Strict discipline should be maintained during the event.
- Violation of any rule will be followed by instant disqualification.
- No external help permitted.
- Required materials for preparing the model (if it is included in any round) will be provided.
- Maximum time limit in Round 3 is 60 min for treasure hunt for finding clues.
- Judges decision shall be final and binding above all.

Requirements

- A1 size sheet(white)
- Pencil
- Eraser
- sharpener
- Cello tap
- scale
- Virtual money
- Thermocol sheet A1 size

- Cardboard sheet
- Water colour
- Paint brush
- Colour sheets
- Scissor
- Cutter
- Pushpins
- Envelopes
- Fevicol
- Foil roll
- Sketch pen
- Pop stick

Level Description

Round 1:

- The Main objective of this round is to check technical knowledge of teams of the civil engineering field.
- In this round series of questions given in any form like, MCQs, SUDOKU, etc.
- No. of team advancing the next round will be decided by the judges.

Round 2: Reveal details of round on the spot.

- In this round basic technical knowledge of teams will be tested.
- Also in this round how well you know your team member will reveal.

Round 2: Treasure Hunt & Model Making

- In this Round one has to find the clues by solving the riddles.
- After solving the riddles one can earn the score and this score will help them to buy the materials required for designing their respective model.
- After collecting the materials one has to prepare the model.
- The presentation of the model to the judges will also carry weightage

Evaluation Criteria

Positive markings:

- Preciseness
- Degree of data represented
- Creativity
- Innovation
- Feasibility

Negative markings:

- Non-compliance to GDCR and NBC
- Participants and on securing top 2 position along with complying to all rules and regulations will be awarded with respective certificates

Judges:

- Any one Industry Expert with minimum 10 years of experience in the relevant discipline
OR
Any one Academic Expert with minimum 10 years of experience in relevant discipline
- Any one faculty from any other GTU affiliated college in the same zone
OR
Any one faculty from the Host Institute
